Refactory Ores and Available Processes.

In reply to letters of inquiry from the editor of the American Journal of Mining, Mr. Lyon and Mr. Keith have written the following letters describing the results of their process:

18 Exchange Place, New York, June 21, 1866.

George Francis Dawson, Esq., Editor American Journal of Mining.

Dear Sir:—In reply to your favor of 24 inst., I would say our smelting furnace in Colorado were built at a cost of \$350,000, and are capable of smelting 25 tons per day. The average yield per ton of pyrites is about \$150, and of argentiferous about \$100 per ton. The ore is extracted from the vein at an average price of \$10 per ton. Transportation to furnaces from veins will not exceed \$2 per ton. Cost of smelting has not exceeded \$30 per ton. Cost of transportation of bullion to New York 2 1/2 per cent. Our process for smelting is not patentable, neither is it any secret, it being the process for treating those ores in Europe for centuries. Any other inquiries you wish to make will be promptly answered.

I am respectfully yours,

James E. Lyon.

New York, June 26, '66.

To George Francis Dawson, Esq., Editor American Journal of Mining.

Sir:—Your note relating to the "desulphurizing process" patented by E. Keith, A. Behr and N. S. Keith, has been received, and in reply I would say:

First. The yield of Colorado ore by this process, with new amalgamating and pulverizing machinery, has been from \$40 to \$150 per ton of 2,000 lbs. Second and Third. The Mammoth Company (where the process is used) have bought their ore.

Fourth. The cost of desulphurizing, pulverizing and amalgamating, is about \$10 per ton.

Fifth. The cost of transportation of gold from Colorado to New York city is from 1 1/2 to 3 per cent.

Sixth. The present working of the Mammoth Company is about 20 tons per day. Machinery is on the way to increase the above quantity to the full capacity of the furnace, viz: 40 tons per day.

Seventh. It will cost about \$50,000 to put up works by this plan to work from 40 to 50 tons per day.

Eighth. \$5,000 is charged for the right to use the process, with full instructions. Yours respectfully, B. Keith.

In commenting on the above the editor of the Journal says:

From these notes it will readily be perceived that both the Lyon and Keith processes are bona fide successes, because the above are results of actual working of ores for months and months on the mining ground. As to the comparative merits of the two methods, readers can judge for themselves. The works, in one case, appear to cost more than the other, and are more expensive to run, but then the average yield seems to be much higher. Perhaps one process will work better than the other, according to the nature of the ores treated, and perhaps a hundred things more. But one thing is certain: there is ample room in Colorado for both systems, and so long as they produce such results, at such rates of cost, they are both likely to be popular.

THE CARMICHAEL TESTIMONIAL.—We have just received a specimen of this attractive publication—a brief selection of the poems of Miss Sarah E. Carmichael, of this city. The typography and general execution of the work reflects great credit on the enterprise and good taste of the publishers, Messrs Towne & Bacon, of San Francisco.

We are informed by Mr. Aaron Stein that 1,400 copies of the work have been received, and that nearly all have been subscribed and paid for. Our sister Territory, Montana, contributed not far from \$300 to the fund, as an assurance, so expressed, that "the echoes of Miss Carmichael's poetry are not suffered to die away in our own beautiful valley." On every hand the novel enterprise met with enthusiastic favor, save in one quarter, where propriety seemed to demand much, but from which experience has taught us to expect little that is noble, generous or self-sacrificing.

The modest production before us is an honor to Utah, but the practical friends of the authoress are not among the so-called select and chosen of its inhabitants. It is to Gentile influence and Gentile aid that her remarkable development as a poetess is chiefly due. This fact will be the more apparent when we come to publish, as we hope to do, the names of those who have contributed to this merited testimonial, and the philosophy of the matter rests with that peculiarity of the Church system which makes her generally antagonistic to right, progress and truth, in consequence, appalling.

"Why is it that genius perplexes and troubles And offends the effete life it comes to renew? 'Tis the terror of truth, 'tis the genius is true." One or two items of expense being as yet unascertained, the Treasurer must defer for a short time a final report of receipts and disbursements. Such a statement, we are assured, will be published at the earliest possible moment. In the meanwhile subscribers will please call on "our friend" Stein, at the Overland Mail Office, and procure the number of copies due them.

From California.

San Francisco, July 11. President Juarez, writing from El Paso under date of June 8th to Consul Godey, informs him that on the 10th of June the Government would start for the city of Chihuahua again. No French or traitor forces were in the State of Chihuahua or nearer than the city of Durango, and as the tide of war is rolling rapidly towards the city of Mexico, no danger of the return of the Imperialists was apprehended. Commodore Rodgers starts to-day for the East by the Overland route. Legal tenders, 714.

BY PACIFIC TELEGRAPH.

[SPECIAL TO THE DAILY UNION-VEDETTE.]

CONGRESSIONAL.

HOUSE.

Washington, July 16.

The President to-day sent in veto of the Freedmen's Bureau bill, recapitulating previous objections and stating that the present Bureau would in any way continue until after next session.

Mr. Eliot moved to postpone the question until to-morrow.

Mr. LeBlonde moved to take it now.

House then voted—ayes 103, nays 33 and passed the bill over the veto.

Chicago, July 17.

Higby, in the House, introduced a bill to legalize the occupation of the public mineral lands, and to extend the right of pre-emption. Read twice and referred to Committee on Mines and Mining.

GENERAL NEWS.

Chicago, July 17.

The World's special says, within three hours after the receipt of the President's veto message in the House, the freedmen's bureau bill had triumphantly passed both Houses of Congress, and was proclaimed by Mr. Foster as a law of the land. The vote in the House was 103 to 33, and in the Senate 30 against 12.

The Senate was occupied yesterday with the Northern Pacific Railroad bill, upon which no action was reached.

The Tennessee Legislature is no nearer a quorum, and Brownlow is swearing mad.

Senator Doolittle has written a letter to Gen. Dix asking his endorsement of the Philadelphia Convention.

The General replied in a short way, in which he says, the principles set down in the call met his full approbation, and that he will do all in his power to make the convention a success.

Freeman Clark, Comptroller of the currency, has resigned; to take effect next week.

Foreign News.

New York, July 16.

The foreign news to the 6th is of the highest importance. The Prussians gained a decided victory in Bohemia, both entire grand armies being engaged. Austria offers to cede Venetia to Napoleon, and the latter proposes an armistice. The general belief in peace has produced an effect on consols, closing on the 6th at 87 1/2 for money, 5-20's 67 1/2, Cotton 70, higher.

The steamer America, from Southampton, has arrived.

Consols closed on the 3d at 86 1/2 @ 87; 5-20's, 67 1/2. Cotton quiet and unchanged; flour is lower; wheat dull and 3d. lower; corn still declining and 6d. lower.

The Paris Bourse on the 3d remained firm. Renters, 63 1/2, 84c, being 30c. higher than yesterday.

The war news is important.

The Prussians in Bohemia were making victorious progress, and had taken Gitchin by storm, and the junction of the Prussian army under the Crown Prince and that under Prince Charles had been completely effected.

The King of Prussia had arrived at Gitchin.

The quarters of Prince Charles had been removed beyond Gitchin.

A Gitchin telegram of the 2d says that 100,000 Austrian prisoners have been made by Prussia since the 26th, and 20,000 Austrians killed and wounded.

The Austrian army had retired to a strong position between Josephstadt and Koenigsgratz.

The fighting in the past three days had extended over a greater line than on the 27th, and the Prussians, though suffering heavily, are in excellent spirits.

The Austrian corps under Gen. Godientz was completely broken up. Besides innumerable prisoners, 20 guns, 5 colors and two standards belonging to the corps of Gen. Godientz fell into the hands of the Prussian troops.

The London Times' city article of Tuesday evening says: The news of the rapid progress of the Prussian army has created an impression on "Change as to the possibility of a negotiation for peace.

The Times of the 4th says: Horrible as the carnage has been, it must be looked on as a mere prelude to the plagues of battle now unavoidable, in which a quarter of a million of men will probably be engaged on either side.

Farther Point, July 15.

The steamer Nova Scotia brings dates via Londonderry of the 6th.

A great battle took place on the 3d, near Sudos, resulting in the Prussians obtaining a great and complete victory. The battle lasted 12 hours. The Austrians were commanded by Gen. Benedek, and the Prussians by the King in person.

The Prussians met the Austrians between Herzowitz and Koenigsgratz. Until 10 A. M. the battle was favorable to the Austrians, but after that hour the advantage was with the Prussians. At 2 P. M. after obstinate defence, the Prussians carried by storm the strong position of the Austrians; after which the Austrians were quickly driven out of the other positions, and by 7 P. M. were in full retreat to Koenigsgratz, pursued by the Prussian cavalry. The Austrians were in a complete rout. The road was strewn with baggage which they threw away.

The killed and wounded, on both sides, was great, but not yet been ascertained. The Prussians claim to have captured up to the evening of the 4th, 14,000 wounded prisoners, 116 cannon and several flags. Three Austrian Arch Dukes are reported wounded. Prince Liechtenstein and Prince Muciscara were prisoners.

The Austrian Field Marshal Von Goltz arrived at the Prussian Headquarters at Hertzowitz, on the eve of the 4th, with a flag of truce.

The Paris Moniteur of the 5th makes the following announcement: An important event has just occurred. After having maintained the honor of his army in Italy, the Emperor of Austria, concurring in the ideas expressed in Emperor Napoleon's letter of June 11th, to his Minister of Foreign Affairs, cedes Venetia to France, and accepts his mediation for the conclusion of peace.

The Emperor hastened to respond to the summons and immediately communicated with the Kings of Prussia and Italy in order to obtain an armistice.

The London Times, of the 5th, says, the suddenness and magnitude of the Austrian calamity is too overpowering for any man to speculate on the possible consequence or the destinies of the Austrian Empire.

The Daily News shows that the Prussians not only gained a battle but strategic advantages of the highest importance. They have concentrated eight corps of their army and can pour down on the enemy with overwhelming fury, and have cut off communication between Austrians and Federal army in the west.

The Prussian victories had a decided effect on financial and commercial affairs. There was a general improvement in Consols and other securities at the London Stock Exchange. There was great buoyancy in the Liverpool cotton market, but a depression in breadstuffs.

On the Paris Bourse rentes advanced 1 1/2 and Italian securities 4 per cent.

Garibaldi, on the 3d, attacked the Austrians at Montevideo. The Austrians made a strong resistance. The volunteers finally fell back in good order. Garibaldi was slightly wounded in the thigh.

The Prussian and Italian reply to the proposed armistice has not transpired, but peace is regarded as virtually concluded.

Consols closed at 78 1/4 a 78 3/8 for money. The billon in the banks decreased \$165,000. Sales of cotton 200,000 bales, closing firm and advancing.

California Items.

The Alta says, Flint, Sixby & Co., of Monterey county, have 125,000 acres of land and 42,000 improved sheep, worth \$4 per head. Owing to the people of Napa county being in the midst of harvesting, there was not a general celebration in that loyal town as there would otherwise have been on the Fourth.

The cars on the Yuba Railway connect with the stages for Marysville at Bear River. Fishing seems to be quite the rage in Santa Cruz lately. Indians and Chinamen are pressed into the harvest fields of Napa county. The Grand Jury of Alameda recommend the execution of a new jail. Much timber land has been burnt over lately in Brown's Valley. The Petaluma Argus gives full details of the horrible homicide of the wife of Hans Yanson, who lives in Marion county. Grasshoppers are very numerous on upper Klamath river, and are ruining the feed over large tracts of country. Fortunately they are too late to injure the grain. The Stocktonians had a gorgeous time on the Fourth of July. The oration of Rev. Mr. Hendrickson is spoken of as eloquent and ornate production. Col. A. P. Dudley delivered the Fourth of July oration at Mokelumne Hill. The Metropolitan Theater Company, with Paucorfort, amongst others, have been playing lately at Mokelumne Hill. The Napa Register suggests that the cars running from Napa to the landing box town be provided with cow catchers behind as well as in front, as there is nothing to prevent cows from running into the cars from the rear, while in motion.

---DANGER IN THE SANDWICH ISLANDS.---

King Kamehameha V., the last of his line, is very ill. It is supposed that his brain is softening, and that he is not long for this world. If he dies trouble is anticipated. Both the English and the French stand ready to take advantage of the first sign of anarchy, to offer their protection. "Such protection as virtues give to lamb." Our Minister, Gen. R. H. McCook, sailed from here last Saturday, July 7th, but there is no vessel of war there. Senator Conness has called the attention of Secretary Wells to the matter, and he pleaded as an excuse, that there was no vessel then suitable to send. That has passed. The Vanderbilt is now at Mare Island, and can be, and ought to be, dispatched at once. The United States cannot afford to let any nation get the slightest pretext for interfering in the affairs of the Islands. Now is the time to act. Not a moment should be lost. A month hence may be too late. A few years ago, in 1854, the people of the island, through Kamehameha III., asked to be put under our Government, to be annexed to us. But we lost the golden moment, and from that time both the English and the French have been gaining influence in the Government. England may not desire to take the islands herself, but she had such rather see them fall into the hands of Napoleon III., than into ours. The islands belong to us almost as much as to the natives. We civilized them—Christianized them. Humanity and Christianity call on us to keep them out of the hands of the Emperor of France, or any other tyrant. All our material interests enter the same plea. Let us be wise, and true, and strike in time.—S. P. Tribune.

---The Mineral Land Bill.---

Yesterday's city papers contained in their dispatch from Washington, the following ominous dispatch:

"Mr. Stewart called up the bill to regulate the occupation of the mineral lands, and to extend the right of pre-emption, which, after a discussion, was passed."

So the U. S. Senate—wherein the mining States and Territories are numerically better represented than in the House—has done nearly all in its power to damage the great mining interests of the nation. The bill thus passed is but a re-vamp of Senator Sherman's obnoxious bill—the modifications amounting to little or nothing. However, it is one consolation to reflect that the House of Representatives, which adopted the Kasson resolutions—and is therefore to that extent bound by them—cannot pass this injurious bill without nullifying itself. Better have no legislation than such legislation.—American Journal of Mining.

---FROM NEVADA.---

Chas. Scott was drowned in the Belcher Mine, Gold Hill, on the 11th. The Indians in the vicinity of Red Mountain and Silver Peak are very troublesome. Jack Waters was killed and a Mr. Boniface wounded by them about the 1st of July.

PROPOSALS FOR LUMBER.—See new advertisement by Capt. Grimes, A. Q. M., Camp Douglas.
We have received a visit from Mr. John Kelly, the celebrated stonemason, who arrived in this city from Montana on the 16th inst.
SOMETHING OVER AVERAGE.—Just received at Whitehill's, by express from San Francisco, a choice lot of Havana cigars. We have been there and don't hesitate in saying they will suit the most fastidious.
It will be seen by our California dispatches that Commodore Rodgers, U. S. N., has left California for the East, going via the Overland route. He will undoubtedly be in this city within a few days.
RETURN OF GENERAL CONNOR.—Brvt Major General P. E. Connor arrived in this city by Monday evening's coach. The General is looking hale and hearty after his somewhat extended visit to the East, but since his arrival his time has been so much occupied in receiving the congratulations of his numerous friends that we have had no opportunity of conversation with him in regard to affairs East.
The General is accompanied by Capt. D. B. Stover, late Chief Quartermaster of the District of Utah.
THE WAR IN EUROPE.—Our foreign news, this morning, is of the utmost importance. It appears that the tide of war has turned against Austria, the Prussians having gained an important victory in Bohemia and followed it by a rapid and successful advance into the enemy's country.
Austria, if reports are true, is disheartened, and offers to cede Venetia to Napoleon, which amounts to about the same thing as granting it to Italy. Should this report be confirmed there is reason to believe that it will result in a general peace.
ABOUT IDAHO AND COLORADO.—The crowded state of our advertising columns, for a couple of months past, prevented the publication of interesting letters and sketches on men and manners, mines and mercantile affairs, in Idaho and Colorado territories, as seen and sent by our Mr. Goldrick, while on his travels thither. As soon as our new press arrives the **VEDETTE** is duly enlarged, and we shall have facilities for furnishing more full and varied matter (than we heretofore had room for) relative to life and progress in the territories surrounding. But for the scarcity of space, for several weeks past, those contributions would have "posted" you, pretty thoroughly.
About Idaho and all that, Owyhee and Boise Basin, The Morning Star and Oro Fino, Hogom, Pinedale, Ladew's Crvice, Rocky Bar in old Alturas And the scandal of the Capital, With Idaho City items
Surface quartz and water ditches, Big assays and castle building, From the Payette to the Plat, From Cody's corner to Wall street— Of great things with less blue ones May be mentioned, may be measured, From Hill Beachy's flying stables, To the bar at Jewehap's Joke, or The race "cross camp" Prairie To ye littlest toe or "Blackfoot!"
About golden Colorado, Pike's Peak snows and silver smelters, Denver, Central and surroundings, Buckskin's Joe and ye Big Thompson (Without a P or with it, Is not for him to answer.)
Ay, and all about the crickets, The grasshoppers, the musketeers, And the mighty mammoth engines Ye apt to die or Louie's process, Which with a Pacific Railroad And the grand "cannery" Denver, Shall d'vulgarize creation, Turn wildcats into greenbacks, and Return the South Platte northward! Yes, and of the "Fifty Niners," General Popes' parade and what not, When the "Planters" and "Pacific" Were aglow with pretty women Wishing all to dance the first set With the astral commandant; Of all these and thousand others, Agricultural, commercial, Social, spiri al and social, The whole territory over, These columns would be fluted Did we better paying matter Crowd it out—the dance knows how long!
